

Extravagance Beyond Comprehension!

It takes the dues of almost 1,000 members of our Hilton Head Island/Bluffton Chamber of Commerce to pay Chamber President Bill Miles' annual compensation package of approximately \$400,000.

Which, incidentally is nearly 4x the pay of our Governor.

How's that for spending our money?

Who are They Working for? Themselves or Us?

Our Hilton Head Island/ Bluffton Chamber of Commerce uses its tax exempt, non-profit status—with accommodations tax (bed tax) dollars—to compete with private, local businesses.

Is that fair?

Is that good business?

Is it good for our local economy?

Local Folks aren't Good Enough for Our Chamber?

Instead of using local suppliers, our Hilton Head Island/Bluffton Chamber of Commerce typically ignores local providers and “outsources” website, marketing, video, publicity and ad agency services to out of state ~ even out of country suppliers.

How does that help our local economy when the employees of those “outsourced” suppliers all spend their wages elsewhere ?
